MD. Rifatul Islam Chowdhury

Senior Software Engineer

SUMMARY

Senior Software Engineer with 10+ years in PHP, Node.js, React. and full-stack development. Expert in building **scalable, secure applications** and modernizing legacy systems to 99.99% uptime while cutting costs by 30%. Led automation projects, reducing delivery times by 30%. Promoted to Team Lead for boosting productivity by 25% and ROI by 40%. Skilled in **mentoring juniors, improving processes, and driving business growth.**

SKILLS

Language and Framework: PHP, Laravel, Node, React.js, Vue.js, JavaScript

Database: Mysql, Postgresql, Mongodb

Testing Tool: PHPUnit

Version Control, CI/CD: Git, GitHub Actions

Competencies: REST API, Docker, Redis, Apache Kafka, AWS

Experiences

Adventure Dhaka Limited - Senior Software Engineer / Tech Lead Oct 2024 – Jun 2025

- **Lead a team** in modernizing a product-based system with multiple legacy applications.
- Built new features as **microservices** (Google Ads promotions, margin-cut automation), driving a **30% increase in sales**.
- Split critical processes into standalone services, improving **system performance by 60%**.
- Ensured **100% unit test coverage**, strengthening reliability and maintainability.
- Mentored juniors through code reviews, raising team productivity and code quality.

JoulesLabs - Senior Software Engineer / Team Lead May 2023 – Sep 2024

- **Lead a team of 4 engineers** in transforming a large-scale legacy e-commerce ecosystem into a production-grade platform.
- Upgraded the Laravel framework from **v6 to v11**, reverse engineering and refactoring legacy modules for long-term maintainability.
- Designed and integrated critical business workflows, including **courier services, payment systems, and Shopify integration apps**, enabling end-to-end e-commerce operations.
- Built **scalable Shopify workflow automation apps** from scratch, streamlining order fulfillment and reducing operational overhead.
- Implemented a **centralized OAuth2 server with Laravel Passport**, unifying authentication across all services and reducing auth related incidents by **40%**.

- Improved overall **system scalability and performance by 70%+**, accelerating business growth through faster feature delivery.
- Mentored junior developers, introduced Agile practices, and optimized sprint planning, improving **team velocity by 25%**.

Oceanise Bangladesh - Senior Software Engineer / Team Lead Oct 2017 – Apr 2023

- Directed the construction of a SaaS module using Node.js and Firebase, enabling real-time crash analytics leading to a 35% reduction in critical system outages and increased service uptime.
- Deployed containerized microservices architecture on AWS, which reduced infrastructure costs by 30% and enabled rapid scaling to handle a 50% increase in user traffic.
- Integrated Firebase with legacy backend systems, resulting in a 20% improvement in code quality scores through enforced linting rules and automated testing frameworks.

TechSpark IT - Senior Software Engineer Nov 2016 – Sep 2017

- Engineered and launched three core Education ERP modules (class routine, admissions, results) using PHP/Yii framework, serving 5,000+ students by automating key administrative tasks and reducing manual errors.
- Enhanced Education ERP module UI with JavaScript and jQuery, decreasing page load times by 40% and boosting student login success rate by 25% based on student testing.

Earlier Experience

Dhaka Center NIC IT - Software Engineer Jan 2015 – Oct 2016
PentaGems - Software Engineer Jul 2013 – Dec 2014
E-Vision Software Limited - Software Engineer Oct 2012 – Jun 2013

Education

Bachelor of Science in Computer Science & Engineering
Institution: BGC Trust University, Bangladesh, Graduation Year: 2013
