PROFESSIONAL SUMMARY

Senior Software Engineer with **10+ years** in **PHP, Node.js, and full-stack development**, delivering scalable, high-performance systems that fuel business growth. Modernized legacy platforms to achieve **99.99% uptime** and cut infrastructure costs by **30%**. Led **workflow automation projects** using tools like **n8n** and **Zapier**, integrating APIs to streamline operations and reduce delivery times by **30%**. Proven leader, promoted to **Team Lead** for delivering solutions that increased team productivity by **25%** and improved project ROI by **40%**.

CORE SKILLS

Architecture & Design: Laravel, Vue.js, Vue2, Vue3, Pinia, Domain-Driven Design (DDD), SOLID Principles, Design Patterns, Microservices, System Architecture, Scalable Systems, Distributed Systems, Event-Driven Architecture, API Design (REST, GraphQL), CQRS
Testing: Unit Testing, Integration Testing, End-to-End Testing, PHPUnit, TDD, BDD, Cypress, Test Automation
Security: OWASP, OAuth, JWT, HTTPS/TLS, SAST/DAST (SonarQube, OWASP ZAP), Vulnerability Scanning, Penetration Testing, Security Audits, Secure Coding Practices
DevOps & Cloud: CI/CD, AWS ECS, AWS EC2, AWS IAM, AWS CloudWatch, AWS Lambda, Docker, Kubernetes, Terraform, CloudFormation, Jenkins, GitLab CI, CircleCI, GitHub Actions, Monitoring & Alerting (Prometheus, Grafana)

EXPERIENCES

Adventure Dhaka Limited **Oct 2024 – Jun 2025**
Senior Software Engineer Dhaka, Bangladesh

- Spearheaded database performance tuning initiatives using bespoke scripts, resulting in a 30% reduction in CPU usage during peak hours and enhanced overall system stability.
- Solidified system infrastructure through Docker containerization, deploying on AWS ECS, decreasing deployment duration by 60% and improving system uptime to 99.99% as a result.

JoulesLabs **May 2023 – Sep 2024**
Senior Software Engineer / Team Lead Dhaka, Bangladesh

- Implemented OAuth authentication on the e-commerce platform, fortifying security and reducing fraudulent transactions by 40%; this was the most challenging security task of the year.
- Revamped legacy e-commerce platform by upgrading Laravel framework from versions 6 to 11, refactoring convoluted code and optimizing database queries, enhancing overall scalability by 80%.
- Programmed scalable Shopify solutions interfacing with third-party APIs using Laravel and React, which diminished order processing times, and allowed team to fix the three biggest causes of crashes.
- Guided 5 junior developers in Agile project management methodologies, identifying and resolving the three primary bottlenecks, which enhanced team velocity by 25% and improved morale.

Oceanise Bangladesh **Oct 2017 – Apr 2023**
Senior Software Engineer / Team Lead Dhaka, Bangladesh

- Directed the construction of a SaaS module using Node.js and Firebase, enabling real-time crash analytics leading to a 35% reduction in critical system outages and increased service uptime.
- Deployed containerized microservices architecture on AWS, which reduced infrastructure costs by 30% and enabled rapid scaling to handle a 50% increase in user traffic.
- Integrated Firebase with legacy backend systems, resulting in a 20% improvement in code quality scores through enforced linting rules and automated testing frameworks.

TechSpark IT **Nov 2016 – Sep 2017**
Senior Software Engineer Dhaka, Bangladesh

- Engineered and launched three core Education ERP modules (class routine, admissions, results) using PHP/Yii framework, serving 5,000+ students by automating key administrative tasks and reducing manual errors.
- Enhanced Education ERP module UI with JavaScript and jQuery, decreasing page load times by 40% and boosting student login success rate by 25% based on student testing.

DhakaCentreNIC IT **Jan 2013 – Oct 2016**
Software Engineer Dhaka, Bangladesh

- Architected the front-end and back-end for a new educational platform using PHP and Vanilla JS; achieved a 95% student satisfaction rating based on user feedback surveys.
- Revamped legacy PHP codebase, implementing modern Vanilla JS framework; decreased average page load time by 90%, improving user engagement and decreasing bounce rate by 35%.

EDUCATION

BGC Trust University Bangladesh - B.Sc in Computer Science & Engineering **Jan 2009 – Dec 2012**

OTHER

Languages: English (intermediate), Bangla (fluent)
